BENEFITS OF THE FSS PROGRAM

Case Management:

When a family signs an FSS Contract, they are assigned a Case Manager. The Case Manager will establish a Service Plan with Individualized Goals. The family will be connected with available community resources and supportive services to enable them to reach their educational, vocational training and / or employment goals.

Escrow Account:

If an FSS Family has an increase in rent due to earned income, the Housing Authority will establish an Escrow (savings) Account for them. The Escrow Account will be a portion of the increase in the family's rent. The Escrow will be paid to the family when they successfully complete their FSS Contract
